

Three Reasons For You To Use The Online Retirement Estimator

www.socialsecurity.gov/estimator

1 Immediate and Personalized

The Retirement Estimator is a new online calculator that provides immediate and personalized benefit estimates to help you plan for retirement.

2 Convenient and Interactive

The Retirement Estimator is convenient since it is tied to your actual Social Security earnings record, eliminating the need for you to manually key in years of earnings information. It is interactive and allows you to compare different retirement options by changing your “stop work” dates or expected future earnings.

3 Secure

To protect your privacy, only your benefit estimates are provided online. The Retirement Estimator does not reveal any of your personal information, such as your address, earnings or other information that could lead to identity theft.
